

Work Philosophy:

I believe that proper nourishment is vital to the physical well being of each individual. Drawing upon my education, experience and creativity, I feel compelled to fulfill this need in the following ways:

- To plan, purchase, prepare and serve nourishing food in an efficient manner.
- To provide accessible and understandable nutrition education.
- To create a healthy eating environment by complying with regulations.

Goals:

Professionally: To expand my knowledge in budget development, computer systems and human resource management.

Personally: To create balance in the meaningful areas of my life.

Staff Development: To provide job training and job enhancements for employees in order for them to grow professionally.

Customer Service: To provide progressive and creative organizational planning to increase customer satisfaction.

Career: To continue the educational path to become a Registered Dietitian within the next two years.
